Quality Engineer – Customer Relations

Are you enthusiastic about managing product and private label specifications for a large international organisation? Then become our new Quality Engineer in Arla Foods' Global Category Operations in Aarhus. We are responsible for the production of cheese, butter and powdered milk for markets in Denmark, Sweden and Poland. As part of our Quality Centre you will play an important part in this one-year temporary position, commencing on 1 October 2010.

Front our private label specifications

In cooperation with your team you maintain and develop Arla Foods' specifications for private label products, including estimating nutrient content and designing the ingredients lists. Further, you handle queries from customers, sales units and other key stakeholders in relation to the quality standards in various areas – from technical to regulatory matters. Ultimately, you contribute to the implementation of the quality standards, and ensure that they comply with our standards within Arla Foods.

The position offers you the opportunity to carry out an important documentation mission within a highly professional environment. At the same time, you will have a wide network across the organisation.

Detail-oriented Technician, Engineer or similar

You are an educated Technician, Engineer or similar – specialised in the food or dairy industry. Preferably, you have already gained experience from a position within the food industry. As you will be in close dialogue with stakeholders from all over the world, you need to be able to communicate fluently in Danish and English, while proficiency in other languages is an advantage.

You are highly attentive to details, and take pride in documenting our products and processes, while maintaining the standards. Your systematic approach enables you to survey complex data and multiple tasks simultaneously. Due to your open-mindedness and ability to listen, you are able to cooperate with colleagues at any organisational level.

Application and contact

Mark your application "820510" and send it to job@arlafoods.com no later than 1 August. For additional information, please call Quality Director, Erik Øgaard on +45 8938 1294. Please state in your application, where you have seen the advertisement.

At Arla Foods, we turn milk into innovative products and strive to bring consumers around the world closer to nature. We are united and empowered by respect for the natural source that keeps us in business, and we share a determination to continue our ambitious development and growth. It will be a journey of a lifetime and to succeed we work together – to Lead, Sense & Create.
