

# PAPER SUN DECORATIONS

The sun may not be shining outside, but you can still bring it indoors with these easy-to-make paper decorations. Get creative with the kids using colourful paper, stick-on googly eyes and felt-tips or colouring pencils and a little imagination on a cold and wet day.

## YOU WILL NEED

- 2 x A4 sheets of yellow card
- 1 x A4 sheet of orange card
- Assorted felt-tip pens or Colouring pencils
- Googly eyes (one pair per decorative paper sun)
- A glue stick or double sided tape
- Blue tack
- A pencil
- Scissors
- A ruler

1

Turn a small cereal bowl upside down and draw a circular outline in your first piece of yellow card to make your sun.

2

Using a ruler and pencil, cut seven equal triangles (about 3cm in length) on both your orange and yellow paper to make rays.

3

Using your scissors, neatly cut these out. You and your little ones are now ready to decorate your sun decorations.

4

Using either a glue stick or pieces of double sided tape if you prefer, stick and slightly overlap the rays around your sun, making sure to alternate between your yellow and orange rays.

5

With your sun shape made, you and your little ones are now ready to decorate! Make a face with felt-tips and googly eyes.

6

When you've all finished, use blu tack to stick your amazing sun decoration on the wall and sneak some sunshine in.

7

Want to get more creative? Use cotton wool and sticky tape to make clouds or draw a cut-out rainbow with paper and felt-tips.

Did you know Vitamin D is created in the body from sunlight on your skin and helps to support the normal function of your immune system?

Unfortunately we don't always get sunshine in the UK so at Arla Big Milk we fortify our fresh whole milk with vitamin D. Supporting you and your little ones no matter the weather!
